

Stevens Point/Estelí Partner City

Wisconsin/Nicaragua Partners of the Americas, Inc. (W/NP) is a charter member of Partners of the

Americas, Inc. The partnership promotes understanding and develops ties of friendship between the people of Wisconsin and Nicaragua. The W/NP concept of partnership empowers the citizens from both countries to identify and affect change.

"Working Together, We Make a Difference."

W/NP strives to help others realize and reach their potential. We bring people together, help them become aware, and show them ways to put their ideas into action.

Sustainability

W/NP is one of the few organizations that has had a strong and continuous presence in Nicaragua with people-to-people activities, exchanges, projects, disaster relief, and a variety of institutional linkages

in place since 1964. W/NP is well received throughout Nicaragua because the organization is non-partisan and has no political agenda.
